Press release date: 1<sup>st</sup> September 2014

Fagerdala Shanghai Foams Co., Ltd (a wholly owned subsidiary of Fagerdala Singapore Pte Ltd) and ANL Plastics NV completed an agreement for the production, sales and marketing of custom made thermoformed HDPE fragility packaging solutions - A cost saving packaging solutions produced from clean, recycled, reprocessed and thermoformed HDPE material, examples of such material sources are reclaimed laundry detergent and milk container material.

In the agreement, ANL Plastics NV has licensed Fagerdala Shanghai Foams Co., Ltd to manufacture and sell the patented Geospring® and U-Pad & Lid® thermoformed fragility packaging solution in Asian. Fagerdala Shanghai Foams Co., Ltd and ANL Plastics have established a global partnership recently and Fagerdala Shanghai Foams Co., Ltd is offering ANL Plastics' patented packaging solutions with immediate effect.

"This is a significant partnership as Fagerdala is able to extend its product mix offerings thus giving the customers a wider choice in materials selection for approved fragility packaging solution. It benefits the customers who wish to reduce their packaging process costs and reduce environmental impact through an engineered, post-consumer recycled material packaging solution," said Michael Loh, Executive Director of Global Business Development.

"The patented Geospring® and U-Pad & Lid® thermoformed recycled, HDPE fragility end cap packaging solution produced by Fagerdala will enable disk drive and storage device manufacturers worldwide to realize total cost of ownership savings of 15% - 30% or more compared to expensive and bulky expanded polystyrene, expanded polypropylene, or polyurethane foam end caps. Its application extends beyond disk drive industries to network communication device, medical device and diagnostic equipment as well," Michael added.

About Fagerdala Shanghai Foams Co.,Ltd :

Fagerdala Shanghai Foams Co.,Ltd is a manufacturer and market leader of PE protective packaging solutions. From design concept on end to end design solutions to innovative production processes, sustainable product offering, and just in time delivery, Fagerdala provides innovative, custom-designed, cost-efficient, and functional packaging solutions for the IT, Electronics Manufacturing Services, Network devices and Bio-medical industries. With over 30 years of customer relationship, E50 award-winning and a team of dedicated and talented professionals, inventory management programs, and advanced manufacturing capabilities, Fagerdala will exceed your expectations in total deliverables.
