

01 November 2018

Dear Valued Customer

At Sealed Air, we strive to leave our world, environment and communities better than we found them by innovating to create differentiated, high-performance, sustainable packaging options that protect your products from damage and maximize your brand equity.

Today, as part of that commitment, we have announced a bold sustainability and plastics pledge to **design and advance our innovative packaging solutions to be 100% recyclable or reusable by 2025**. Sealed Air will also accelerate its use of recycled materials, expand reuse models for packaging and lead the collaboration with partners worldwide to ensure execution.

We will do this by accelerating efforts within our operations, our customers' operations and, ultimately to the consumer by:

- **Investing in Innovation:** Design and advance packaging solutions to be 100% recyclable or reusable
- **Eliminating Plastic Waste:** Achieve an ambitious target of 50% average recycled content across all packaging solutions of which 60% is post-consumer recycled content
- **Collaborating for Change:** Lead collaborations with partners worldwide to increase recycling and reuse rates

We are also a charter member of the Ellen MacArthur Foundation's New Plastics Economy initiative and recently became a signatory to the New Plastics Economy Global Commitment. Signed by 250 organizations including many of the world's largest packaging producers, brands, retailers and recyclers, as well as governments and NGOs, the Global Commitment envisions a circular economy for plastics by working to eliminate plastic pollution at the source.

Sealed Air's pledge and commitment to this effort is an important part of driving our industry and the industries we serve toward a sustainable, waste-free future.

If you have any questions about this important work, please do not hesitate to contact your local representative. In the meantime, you can learn more about these initiatives and our investment in sustainability at sealedair.com/sustainability.

Thank you for your continued trust and partnership.

Sincerely,
